

Strata-G Solutions

Quality Assurance Clauses

1.0 PURPOSE

This document provides a set of Quality Assurance (QA) requirements (clauses) for use in specifying the level of quality control Strata-G Solutions, Inc. (also referred to as Strata-G or the Buyer) will exercise over suppliers on procurements.

2.0 DEFINITIONS

- A. Buyer – Strata-G Solutions, Inc.
- B. Supplier/Seller – The party to the Purchase Agreement supplying materials, parts, assemblies, subassemblies, systems, subsystems or services in accordance with the provisions of the Purchase Order.
- C. Purchase Order – The document(s) that details the entire purchase agreement. These may include procurement documents such as contract work orders, purchase agreements and referenced documents such as drawings, specifications, and statements of work.

3.0 GENERAL

The Supplier (also referred to as Seller) is responsible for managing their organization, as well as their entire supply chain, to ensure compliance to all Strata-G requirements as contained in the Purchase Order, Drawings, Specifications, Electronic Files, and this document. In case of any conflict with this document and any other requirements, the order of precedence shall be:

- 1) Strata-G Solutions, Inc. Purchase Order
- 2) Drawings, Specifications, and/or Electronic Files
- 3) This Document

4.0 APPLICABILITY

The requirements contained in this document shall apply to all Strata-G Solutions, Inc. Suppliers whenever SG-QAS-FRM-00072 is invoked by Purchase Order. Excluded are suppliers of stationary supplies, janitorial services, etc.

4.1. The Following Items are Applicable to All Purchase Orders:

A. Supplier Qualification

All Suppliers to STRATA-G shall be qualified in accordance to the STRATA-G qualification process. Suppliers will be asked to complete a Supplier Questionnaire and/or successfully pass an onsite audit conducted by Strata-G. The Supplier shall allow Strata-G personnel access to perform an on-site survey for qualification with the understanding that the Supplier reserves sensitive and proprietary information.

B. Right of Entry

The Supplier shall provide, if required, a US Government, Foreign Government, Commercial Customer, and/or STRATA-G Quality Assurance personnel appropriate for the specific contract and customer, right of entry/access to any of the Supplier's facilities where any work is being performed. Access shall allow for inspection and surveillance to verify conformance to requirements, determine and verify quality of work, records, and materials, validation of procedures to specified requirements of the contract, witness Supplier's performance of acceptance inspection and tests, and surveys and audits.

C. Quality System Compliance

The Supplier shall establish and maintain a system that complies with applicable industry or regulatory standards for the work to be performed and is deemed acceptable by STRATA-G Quality Assurance. When registered by a third party approval process, a copy of the approval certificate shall be forwarded to STRATA-G Quality Assurance, including renewals and/or updates. The Supplier is responsible for informing STRATA-G when there are changes to the approval status.

D. Supplier Assistance

In the event that requirements are not completely clear, or where special assistance is needed, STRATA-G will provide personnel to consult with the Supplier. All communication and request for assistance shall be made via the STRATA-G Purchasing Department.

E. Record Retention

The Supplier shall maintain all records that provide objective evidence of compliance to the Purchase Order requirements and/or specifications. The records shall be retained for a period of seven (7) years after completion of the Purchase Order unless otherwise required by the Purchase Order. Such records shall be made available upon request.

F. Responsibility for Conformance

The Seller is responsible for furnishing products and/or services which conform to the requirements of the Purchase Order regardless of the surveillances, inspections and/or tests made by the Buyer, the Buyer's customer, or the Government or their representatives at either Seller's premises or at the Buyer's premises.

Strata-G Solutions

Quality Assurance Clauses

G. Nonconforming Materials

Seller shall not make decisions to accept nonconforming items detected at the Sellers premises as the Seller does not have material review board authority (see exception). Material which fails to meet the requirements and/or specifications referenced on the Purchase Order shall not be shipped without prior written approval by STRATA-G. A copy of the approval shall be enclosed with each shipment made against the Purchase Order. If Seller has, convincing reason(s) for use as is or repair disposition, Seller shall report the nonconformity to STRATA-G Quality Assurance, through the applicable STRATA-G Purchasing Representative, and provide controls for the identification, documentation, and segregation of the nonconforming item until STRATA-G evaluates the proposed disposition and provides such disposition to the Seller.

Exception: If the Seller is a sole source manufacturer of a proprietary product, the Seller may retain material review board authority for their proprietary product, however; the Seller must provide written notification of changes to drawings, processes, materials, and procedures to the Buyer prior to delivery of the product.

H. Corrective Action

The Supplier's quality control system shall provide means for ready detection of discrepancies and for prompt and effective corrective action. Normal time limit on corrective actions is 14 calendar days unless the supplier obtains an extension from Strata-G's Quality Manager.

I. Deviations and Substitutions

No deviations and/or substitutions in material, design, specifications, or operating performance are permissible without prior written approval from the Buyer. Written approval to the Seller must be provided to the Seller through a change in the Purchase Order.

The Seller shall ensure that the parts being provided are the exact parts being ordered. In addition, all certifications and/or documents being provided shall contain, as the primary number, the exact part number being requested on the PO. **For example:**

PO Line 1: M9177/1-1

Seller Certification/Documentation/Label: M9177/1-1 (MFG P/N XABC-1)

Strata-G Purchase Order calls for Seller to supply M9177/1-1. The Sellers certification, documentation, labeling, etc., **MUST** have M9177/1-1 as the primary number listed. If the part has a manufacturer specific part number for this item, it may be listed, however; it shall never serve as the primary number unless it is specifically requested on the PO.

J. Prohibited Practices

The following acts or practices are typical of those prohibited:

- Rework – Seller shall not perform rework outside of the specific specification limits (e.g., welding, soldering, reheat-treat, insert removal and reinstallation) unless prior written approval is obtained from the Buyer.
- Repair – Seller shall not repair a product without the prior written approval of the Buyer.
- Scrap – Seller shall return to the Buyer any furnished product that has been dispositioned as scrap. The Buyer shall determine whether the proper disposition will be scrap.
- Unauthorized submittal of production – Seller shall not submit items from a production run for inspection by the Buyer when the procurement document requires the Buyer's prior acceptance of a "first article".
- Notification of location change – Seller shall not use or relocate any production, manufacturing, and/or processing facilities during the performance of the work specified in the procurement document without the prior written approval of the Buyer.

Exception: If the Seller is a sole source manufacturer of a proprietary product, the Seller may retain material review board authority for their proprietary product, however; the Seller must provide written notification of changes to drawings, processes, materials, and procedures to the Buyer prior to delivery of the product.

K. Packaging Requirements

Seller shall be responsible for ensuring that items provided under this Purchase Order are packaged in such a manner that the dimensional integrity is preserved, contamination and corrosion are prevented, and no physical damage occurs or, when specified, that packaging is in accordance with the drawing, specifications, or other applicable Buyer specified requirements.

L. Flow-down Requirements

The Seller shall flow down all quality requirements to subcontractors to the extent necessary to ensure that characteristics not verifiable upon receipt are adequately controlled by the Seller's subcontractor.

Strata-G Solutions

Quality Assurance Clauses

4.2. The Following Items are Applicable ONLY When Specifically Referenced in the Purchase Order by Number:

Element Q100 – Quality Management Systems

Q101 General – ANSI/ISO/ASQC – 9001

The Seller shall maintain an effective Quality Management System in accordance with ANSI/ISO/ASQC 9001, Quality Management System – Requirements.

Q102 Aerospace – SAE AS9100

The Seller shall maintain an effective Quality Management System in accordance with SAE AS9100, Quality Management Systems – Aerospace – Requirements.

Q103 Calibration – ANSI/ISO/ASQ/IEC – 10012

The Seller shall maintain and Seller's subcontractors shall maintain an effective Calibration System in accordance with a national or international approved standard(s), such as: ANSI/ISO/ASQ/IEC 10012, 17025, Z540-1 or an equivalent standard approved by the buyer.

Q104 NADCAP – National Aerospace and Defense Contractors Accreditation Program

The Seller shall maintain NADCAP approval for special processes being performed on all material being furnished on this Purchase Order.

Element Q200 – Inspection Requirements

Q201 Government Source Inspection

Government Source Inspection/test is required prior to shipment from your facility. Upon receipt of this order the seller shall immediately notify the government representative who services your facility so appropriate planning for government inspection can be accomplished. If a government representative does not service your facility, contact the Defense Contract Management Command (DCMC) for direction.

Q202 Buyer Source Inspection

Strata-G source inspection/test is required prior to shipment from your facility. Notify the applicable STRATA-G Purchasing Representative five (5) working days in advance of the date when material is ready for inspection/test. If the material is not ready for STRATA-G review when called for, the Seller may be liable for all expenses incurred by STRATA-G surveillance personnel. Inspection at the Seller's facility does not guarantee final acceptance at Strata-G unless otherwise specified on the purchase order.

Q203 First Piece Inspection

Supplier first piece inspection is required. Seller shall ensure the first piece conforms to all drawings, specifications and specified requirements of the Purchase Order, and that the first piece is a representative of the production materials, processes, production equipment and inspection equipment that is intended for use to produce the contracted quantity and verified by qualified personnel. Records of the first piece inspection shall be available for review by Strata-G per paragraph 4.1.e.

Q204 First Article Inspection (FAI) (AS 9102)

Supplier first article inspection is required. The first production piece must have a complete 100% First Article Inspection performed, and documented, to become part of the First Article Package to be submitted to the Buyer for review/approval prior to continuation of production. The First Article Package must consist of; the first production piece (segregated and identified as being the FAI part(s)), a documented inspection report containing each characteristic of the production piece, material certifications, and special processing certifications. When the item being delivered is an assembly or subassembly, the first article inspection shall also include all detailed parts contained therein. Seller shall ensure the first article conforms to all drawings, specifications and specified requirements of the Purchase Order, and that the first article is a representative of the production materials, processes, production equipment, and inspection equipment that is intended for use to produce the contracted quantity and verified by qualified personnel.

Seller may not continue to manufacture additional items without written authorization from the Buyer. Buyer's acceptance of Seller's first article does not guarantee acceptance of the production lot.

First Article Inspection is required when any of the following occurs:

- The product is new to the supplier.
- There has been a change in the design affecting form, fit, or function of the product.
- There has been a change in numerical control program that can potentially affect fit, form or function.

A lapse in production for more than 24 months.

Strata-G Solutions

Quality Assurance Clauses

Q205 Welding

The Seller's welding personnel and inspection personnel must be appropriately trained, qualified and certified to the applicable standard(s) called out on the drawing(s) and/or specification(s) or material type for the work to be performed on this Purchase Order. Personnel certification documents shall be supplied to the Buyer upon request.

Q206 Non-Destructive Test/Inspection (NDT/NDI)

The Seller's personnel must be appropriately trained, qualified and certified to the applicable standard(s) called out on the drawing(s) and/or specification(s) for the work to be performed on this Purchase Order. Personnel certification documents shall be supplied to the Buyer upon request.

The Supplier shall furnish with each shipment, affixed to the product/material being supplied, a copy of the NDT/NDI process certification, clearly identifying the results of the test/inspection, for all items requiring any of the following tests and/or inspections:

- Penetrant
- Magnetic Particle
- Ultrasonic
- Radiographic (must supply film as well)
- Eddy Current

Q207 Use of Strata-G Approved Suppliers

The Seller shall utilize Strata-G/Customer/Government approved suppliers for performance of all special processes. The use of Strata-G/Customer/Government suggested/approved suppliers does not relieve the Seller of the responsibility for product/service quality. Contact the buyer for a list of Strata-G/Customer/Government approved suppliers.

Q208 100% Inspection Requirement

The Seller must perform 100% inspection of all items on this Purchase Order to ensure compliance to drawing and specification requirements. Objective evidence of such inspection must be maintained on file and available for review by Strata-G per paragraph 4.1.e.

Q209 Drawings

Seller shall furnish with the first shipment of the Purchase Order, drawing(s) or sketch(s) and specification(s) adequate to permit inspection and/or test of the product. Seller shall ensure that such documentation is controlled and the revision furnished is the latest, valid description of the product.

Element Q300 – Material and Certification Requirements

Q301 Certified Inspection/Test Data

Seller shall provide a legible and reproducible copy of all certified inspection/test data, indicating results of all required inspections with each shipment.

Q302 Chemical and Physical Test Reports

Seller shall provide a legible and reproducible copy of all original manufacturers' chemical and physical test reports for material procured under this Purchase Order with each shipment. All paperwork must be traceable per material lot number and/or purchase order numbers.

Q303 Certificate of Compliance/Conformance (C of C)

Seller shall provide a legible and reproducible certification with each shipment to attest that the parts, assemblies, subassemblies, or detail parts conform to the Purchase Order requirements and must be signed by a responsible company representative. The certificate of conformance must contain:

- Name and Address of Supplier
- The Strata-G Purchase Order number and line item number.
- The part name, part number (and revision number if applicable) and quantity shipped.
- The serial number for serialized items and/or lot number for lot controlled items.
- A conformance statement that all Purchase Order and/or specification requirements have been met.

COTS item certificates can attest that the parts conform to either the Strata-G Purchase Order Requirements or the Supplier's Terms and Conditions.

Strata-G Solutions

Quality Assurance Clauses

Q304 Certificate of Calibration (Inspection, Measuring, and Test Equipment)

Seller shall furnish, with each item shipped, a legible and reproducible certificate of calibration signed by a responsible company representative and shall be traceable to the individual item tested and shall include the Buyer's part number, serial number, and Purchase Order number for each item being shipped. The Seller's calibration certificate shall include a unique tracking number, tolerance range, as received condition, and environmental condition at calibration. The certificate shall also state the operating error per specification, the degree of correction of out of tolerance condition and remaining uncorrected out of tolerance condition, if applicable.

Q305 Safety Data Sheet (SDS/or MSDS)

Seller shall furnish a Safety Data Sheet (SDS or MSDS) for the material being provided. The Safety Data Sheet must accompany each shipment of material.

Q306 Special Process Certification

Seller shall ensure that special processes (e.g. heat treat, soldering, welding, anodizing, chemical film treatment, NDT, etc.) are performed only by sources that have been surveyed and qualified/approved, by the Seller and/or the Buyer, to perform those processes. The Seller shall provide to the Buyer upon request all documentation showing evidence of special processor qualification and/or certification to perform special manufacturing, assembling, and/or test processing as required by the Purchase Order or specifications. The Seller may elect to utilize sources already approved by the Buyer for the applicable special process.

A special process certification, signed by a responsible company representative, shall be provided with each shipment of item(s) delivered. Special process certifications shall include the following:

- The Strata-G Purchase Order number and line item number.
- A statement that the process was performed per the applicable drawing/specification requirements.
- Part number(s), serial and/or lot number(s), of the item processed.
- Material process specification and revision.
- Type and/or Class of application, if applicable.
- **Objective evidence demonstrating compliance with the applicable process (i.e. temperature charts and hardness test results for heat treatment, destructive test results, etc.)**
- Seller's name and address, and if performed by someone other than the Seller, the name and address of the organization performing the process.

Q307 Life Limited and Age Controlled (Shelf Life) Items

Seller shall provide all pertinent shelf life data with each shipment. Seller shall ensure that at least 75% of the material's shelf life is remaining upon delivery to the Buyer. Seller shall ensure that all materials which are harmful to human health and/or property are contained in accordance with applicable regulatory specifications.

Q308 Certification of Solderability

Seller shall provide applicable solderability certification from the Manufacturer that electronic parts/components furnished on this Purchase Order meet the requirements of approved and accepted joint industry standards..

Q309 Electrostatic Discharge (ESD) Sensitive Devices

Seller shall maintain an ESD program that is appropriate to protect electrical and electronic parts, assemblies and equipment during all stages of handling, storing, packaging, preservation and delivery of such parts. Seller shall properly package and identify all items and will place them in conductive or static-dissipative packages, tubes, carriers, bags, etc. The packaging must be clearly labeled to indicate that it contains electrostatic sensitive goods.

Q310 Raw Material Traceability (Sheet, plate, rod, bar, tube, extrusion, etc.)

Seller shall mark each individual item and applicable documentation to show material type or designation, material specification and temper, as well as clear traceability to lot, heat lot, or batch number. All items shall be identified by continuous stenciling (not to exceed 12 inches), of sufficient size, to be readily legible, applied by permanent ink or dye of contrasting color, non-injurious to metal surfaces and not soluble in cutting and coolant oils.

In cases where marking requirements cannot be met, such as rod, bar and tube with a cross section smaller than ½ inch, the items shall be bundled together. Each bundle shall contain only those materials from the same manufacturer batch, and shall be marked with an adhesive label or tag permanently marked with all the aforementioned data.

Strata-G Solutions

Quality Assurance Clauses

Q311 Parts Traceability (NAS, AN, MS, etc.)

When the Seller is a distributor – The Seller shall ensure, and certify as such, that the part(s) being provided comply with all the requirements of the Purchase Order; and the manufacturers certification and/or chemical/physical test reports are on file and available for review by the Buyer and/or customer quality assurance representative upon request.

Each lot shall be packaged in a manner that ensures there will be no co-mingling of like parts from different lots in the same container.

Each interior/individual package shall be identified with, at a minimum, the lot number, part name, part identification number, Strata-G PO number, project number and name of fastener manufacturer.

(Pay particular attention to “Deviations and Substitutions” in section 4.1)

When the Seller is the fastener manufacturer – The Seller shall ensure, and certify as such, that the part(s) have been manufactured in accordance with requirements of the applicable NAS, AN, MS, etc., government approved Parts Standard and Procurement Specification; and the certifications and/or chemical/physical test reports are on file and available for review by the Buyer and/or customer quality assurance representative upon request.

Each lot shall be packaged in a manner that ensures there will be no co-mingling of like parts from different lots in the same container.

Each Package shall be identified with, at a minimum, the lot number, part name, part identification number, Strata-G PO number, and name of fastener manufacturer.

(Pay particular attention to “Deviations and Substitutions” in section 4.1)

Q312 REQUIREMENT FOR AIRWORTHINESS CERTIFICATION (FAA)

Seller shall ensure that the parts and/or material being provided conform to the airworthiness requirements mandated by the Federal Aviation Administration, U.S.A. (FAA). FAA Conformity Certification is required for parts and/or material specified on this Purchase Order and an original FAA Form 8130-3, Release Certificate Approval Tag, for Airworthiness shall be included with each shipment. If delivery an order is split, copies of FAA Form 8130-3 is acceptable for all except the last delivery which must be accompanied by the original form.

When the parts and/or material being provided are from a foreign government, it must be from a country with which the United States of America has an active Bilateral Airworthiness Safety Agreement (BASA) in place for the item(s) being provided. An equivalent to FAA Form 8130-3 from the importing country’s Civil Aviation Authority (CAA) is acceptable in this instance.

NOTE: For a list of countries with a United States Bilateral Airworthiness Safety Agreement in place, consult FAA Advisory Circular (AC) 21-18 and AC 21-23.

Q313 COUNTERFEIT AVOIDANCE AND MITIGATION

Suppliers shall establish and maintain a Counterfeit Parts\Material Prevention and Control Plan using any or all standards AS5553, AS6081, and\or AS6174 to ensure that counterfeit goods are not delivered to Strata-G. The purpose of the control plan shall be to develop a robust process to prevent the delivery of counterfeit commodities and control commodities identified as counterfeit.

Suppliers shall only purchase products to be delivered or incorporated as goods to buyer directly from the Original Component Manufacturer (OCM)\Original Equipment Manufacturer (OEM), OCM/OEM authorized distributor chain, aftermarket manufacturer, or authorized reseller. These products shall have verification that goods are traceable to OCM/OEM; OCM/OEM authorized distributor chain, aftermarket manufacturer, or authorized reseller that identifies the name and location of all the supply chain intermediaries from the part manufacturer to the direct source of the product.

If Goods can only be acquired from independent distributors or brokers in cases of diminishing material supply (DMS) or obsolescence, written notice shall be provided to the Strata-G Quality Engineer and \or Supplier Quality Engineer and Buyer prior to procurement of these goods. Strata-G buyer will obtain approval from Quality Assurance and Engineering with a determination of further testing requirements if necessary.
